# APJ Progress Spark Workshops
# Thursday 23 April 2015
****** Limited seats ******

The APJ Progress Spark Workshops are a smart way to get targeted business insight into a specific technical implementation scenario—straight from product experts.

If you would like to attend one of these workshops, please reply with **Workshop 1, 2, 3 or 4 by Wednesday 15th April**, to secure a seat. **Attendees are required to bring along your laptops**. We will contact you if there are any other pre-workshop requirements and instructions. Thank you and see you in Perth!

| Topic | Title | Workshop |
|---|---|---|
| **Agility Through Business Rules Management**<br><br>Conducted by Ankur Goyal, Progress | Keeping business applications up to speed with rapidly changing market expectations, customer requirements and regulations is vital to staying ahead. Need to more quickly implement and update business rules without revising code? Attend this workshop and discover how the Progress® Corticon® business rules management system (BRMS) can accelerate your response. See how Corticon works with existing applications using Progress® OpenEdge®, Progress® Rollbase® and/or Progress® DataDirect Cloud®. | **1** |
| **Navigating Pacific: An OpenEdge AppServer Hack-a-thon**<br><br>Conducted by Roy Ellis, Progress | The new Pacific AppServer for OpenEdge (PAS for OE) is the modern interpretation of the Progress Classic AppServer. This workshop will cover creating, managing and monitoring of PAS for OE, including application migration from "Classic" AppServer to PAS for OE. We will supply an Arcade Cloud image for each workshop attendee, but you will need a laptop with a Remote Desktop application to participate. | **2** |
| **Table Partitioning**<br><br>Conducted by Rich Banvillle, Progress | Business application performance, scalability, maintenance and data management. They all suffer from data overload. Attend this workshop to discover how Progress OpenEdge 11.4 eases the burden of managing large OpenEdge databases with table partitioning and new, powerful features for boosting performance and scalability. | **3** |
| **Build a Complete Website and Mobile Application from A-Z with the Telerik Platform**<br><br>Conducted by Peter Marinov, Seth Cleaver, John Bristowe, Telerik | This workshop will teach you how to build an entire website with Sitefinity in less than 90 minutes. This website will be built using a combination of popular web technologies like ASP.NET MVC, AngularJS and Twitter Bootstrap. From there, next 90 minutes you'll learn how to integrate this website with Telerik Platform mobile tools to publish a native and hybrid mobile app.<br><br>The session will highlight the approaches of different roles in your team – designers and developers - and will demonstrate how these roles can collaborate to rapidly deliver a Sitefinity-driven web application and content-driven mobile app. | **4** |
